

How to Manage Time

The Swiss Way

1. ÜBERPÜNKTLICHKEIT

Arrive early. Start exactly on time.

- ✓ Arrive 5–10 minutes early
- ✓ Start the meeting at the exact minute planned
- ✓ Never make others wait.

■ 2. PRECISION PLANNING

Prepare fully. Improvise never.

- ✓ Send the agenda before the meeting
- ✓ Bring data, not guesses
- ✓ Know your decision points in advance.

■ 3. THE TIMETABLE MINDSET

Run your day like a train schedule.

 Departures 		
Time	Destination	Status
09:00	Meeting	On Time
09:30	Deep Work	On Time
10:00	Break	On Time

- Build in zero-buffer scheduling
- Treat each time block as a fixed departure
- Reliability beats speed.

■ 4. FLAG IT EARLY

Report a delay before the deadline, not after.

- ✓ **If Friday is at risk, say so Wednesday.**
- ✓ **Early warning reads as competence, not failure.**
- ✓ **Silence is the real mistake.**

■ 5. CONSENSUS BEFORE ACTION

Decide slowly. Execute without friction.

- ✓ **Get buy-in before moving**
- ✓ **Avoid unilateral shortcuts**
- ✓ **Slow agreement beats fast conflict.**

■ 6. QUIET RELIABILITY

Competence over charisma.

- ✓ **Let consistency speak instead of promises.**
- ✓ **Under-promise, deliver exactly.**
- ✓ **Trust compounds through repetition.**

Plan. Arrive. Deliver. Repeat. ■
